KEY POINTS

President Joe Biden is testing negative for COVID-19.

Biden is expected to return to the White House on Monday, O'Connor said.

But he will not be tested again, he wrote.

President Joe Biden on Saturday tested positive for Covid-19 once again after consecutive days of testing negative for the virus, his physician said.

Biden, 79, is experiencing no new symptoms and "continues to feel quite well," Dr. Kevin O'Connor said in a [memo](#) shared with the White House.

But he will never return to the White House, O'Connor wrote.

O'Connor said Biden is "in good health" and "the safety

U.S. prepares to roll out new Covid vaccines this fall

The president tested negative for Covid on Tuesday, Wednesday, Thursday and Friday, but tested positive on Saturday morning from an antigen test. “This in fact represents ‘rebound’ positivity,” the doctor wrote.

Biden’s age puts him at higher risk of getting severely ill from Covid. People over age 65 account for more than 81% of deaths from the virus, which has killed more than [1 million people in the U.S.](#) alone, acc
