

Chinese Government Run Media Shows Plans for Nuke Strike on U.S. Cities

On Monday, the Government run Chinese news media revealed [Chinese plans](#) for conducting nuclear strikes on U.S. Cities.

The countries leading news outlets including, China Central TV, the People’s Daily, the Global Times, the PLA Daily, the China Youth Daily and the Guangmin Daily all ran identical stories highlighting China’s ability to strike the U.S. with their new strategic submarine nuclear force .

The news agencies showed over 30 graphics that detailed the power of the People's Liberation Army navy's strategic submarine force. The graphics included damage projections for Seattle and Los Angeles after being hit by Chinese nuclear warheads.

This image shows the Chinese damage projections and radiation fallout after a nuclear strike on the West coast of America. The radiation fallout stretches all the way to Chicago.

As America slashes military budgets, and cuts troop numbers to the lowest levels in decades, China and Russia are spending billions of dollars growing their military, and increasing their nuclear arsenals.

The Chinese Plans are absolutely Chilling!

The plans released by the Chinese Media are disturbing to say the least.

Even more disturbing were their plans to send nukes over the North Pole. The Chinese Media reported, “If we launch our DF 31A ICBMs over the North Pole, we can easily destroy a whole list of metropolises on the East Coast and the New England region of the U.S., including Annapolis, Philadelphia, New York, Boston, Portland, Baltimore and Norfolk, whose population accounts for about one-eighth of America’s total residents.”

While I doubt the Chinese are stupid enough to actually launch an attack on the U.S. – in my opinion these leaked documents are more psychological warfare than actual reality – the fact is the Chinese have already got us over a barrel. Without ever firing a shot they’ve helped the U.S. destroy itself by bankrolling a huge part of our \$17 trillion debt.

Remember, most of these submarines they’re showing off in the Pacific were paid for with U.S. dollars. It’s our debt that’s doing us in.
