Dr. Francis Boyle Creator Of BioWeapons Act Says Coronavirus Is Biological Warfare Weapon

Francis Boyle is a professor of international law at the University of Illinois College of Law. He drafted the U.S. domestic implementing legislation for the Biological Weapons Convention, known as the Biological Weapons Anti-Terrorism Act of 1989, that was approved unanimously by both Houses of the U.S. Congress and signed into law by President George H.W. Bush.

In an exclusive interview given to *Geopolitics and Empire*, Dr. Boyle discusses the [coronavirus](#) outbreak in Wuhan, China and the Biosafety Level 4 laboratory (BSL-4) from which he believes the infectious disease escaped. He believes the virus is potentially lethal and an offensive biological warfare weapon or dual-use biowarfare weapons agent genetically modified with gain of function properties, which is why the Chinese government originally tried to cover it up and is now taking drastic measures to contain it. The Wuhan BSL-4 lab is also a specially designated World Health Organization (WHO) research lab and Dr. Boyle contends that the WHO knows full well what is occurring.

Dr. Boyle also touches upon [GreatGameIndia](#)'s exclusive report [Coronavirus Bioweapon](#) – where we reported in detail how Chinese Biowarfare agents working at the Canadian lab in Winnipeg were involved in the smuggling of [Coronavirus](#) to Wuhan's lab from where it is believed to have been leaked.

Dr. Boyle's position is in stark contrast to the mainstream media's narrative of the virus being originated from the seafood market, which is increasingly being questioned by many experts.

Recently, [American Senator Tom Cotton of Arkansas](#) also dismantled the mainstream media's claim on Thursday that pinned the [coronavirus](#) outbreak on a market selling dead and live animals.

Quiz: Can You Name This Mascot?

[QuizFactory.com](#)

In a video accompanying his post, Cotton explained that the Wuhan wet market (which Cotton incorrectly referred to as a seafood market) has been shown by experts to not be the source of the deadly contagion.

Cotton referenced a [Lancet study](#) which showed that many of the first cases of the novel [coronavirus](#), including patient zero, had no connection to the wet market — devastatingly undermining mainstream media's claim.

"As one epidemiologist said: 'That virus went into the seafood market before it came out of the seafood market.' We still don't know where it originated," Cotton said.

[QuizFactory.com](#)

Nyquist gave three different data points for making his case in analyzing [Coronavirus](#). He writes:

The third data point worth considering: the journal [GreatGameIndia](#) has published a piece titled "[Coronavirus Bioweapon – How China Stole Coronavirus From Canada And Weaponized It](#)."

EXCLUSIVE#[Coronavirus](#) Bioweapon Thread

How China Stole Coronavirus From Canada And Weaponized It<https://t.co/tc7W2DrmAA>

— [GreatGameIndia \(@GreatGameIndia\)](#) January 27, 2020

The authors were clever enough to put Khan's [Virology Journal](#) article together with news of a [security breach by Chinese nationals at the Canadian \(P4\) National Microbiology Lab in Winnipeg](#), where the novel coronavirus was allegedly stored with other lethal organisms. Last May, the [Royal Canadian Mounted Police](#) were called in to investigate; by late July the [Chinese were kicked out of the facility](#). The chief Chinese scientist ([Dr. Xiangguo Qiu](#)) was allegedly making trips between Winnipeg and Wuhan.

Here we have a plausible theory of the NCoV organism's travels: first [discovered in Saudi Arabia](#), then [studied in Canada](#) from whence it was stolen by a Chinese scientist and brought to Wuhan. Like the [statement of Taiwan's intelligence chief in 2008](#), the [GreatGameIndia](#) story has come under [intensive attack](#). Whatever the truth, the fact of proximity and the [unlikelihood of mutation](#) must figure into our calculations.

Meanwhile, the mainstream media's narrative still maintains that the origin of the 2019 Coronavirus is the Wuhan Seafood Market. After [GreatGameIndia](#) published the story on [Coronavirus Bioweapon](#) – not only were our database tinkered with and our reports blocked by Facebook on the flimsy reason that they could not find [GreatGameIndia Facebook page](#), but the report itself was viciously attacked by Foreign Policy magazine, [PolitiFact](#) (known widely as Facebook's propaganda arm) and BuzzFeedNews.

It is not [GreatGameIndia](#) alone which is being viciously attacked. Zero Hedge, a popular alternate media blog was suspended by Twitter for publishing a story related to a study by Indian scientists finding 2019 Wuhan Coronavirus to be [not naturally evolved](#), raising the possibility of it being created in a lab. Shockingly, the study itself came under intense online criticism by Social Media experts resulting in the scientists withdrawing the paper.

In retaliation India has launched a full-scale investigation against China's Wuhan Institute of Virology. The Indian government has ordered an inquiry into a study conducted in the Northeastern state of Nagaland (close to China) by researchers from the U.S., China and India on bats and humans carrying antibodies to deadly viruses like Ebola.

[#FrankPlummer](#) – renowned Winnipeg based Canadian National Microbiology Laboratory scientist key to [#Coronavirus](#) investigation has died in mysterious conditions in Africa. He was the one who received Saudi SARS Coronavirus sample which was smuggled to Wuhan <https://t.co/VjvQMURTyT>

— GreatGameIndia (@GreatGameIndia) February 6, 2020

The study came under the scanner as two of the 12 researchers belonged to the Wuhan Institute of Virology's Department of Emerging Infectious Diseases, and it was funded by the United States Department of Defense's Defense Threat Reduction Agency (DTRA).

Quiz: Can You Name This Mascot?

QuizFactory.com

The [study](#), conducted by scientists of the Tata Institute of Fundamental Research, the National Centre for Biological Sciences (NCBS), the Wuhan Institute of Virology, the Uniformed Services University of the Health Sciences in the U.S. and the Duke-National University in Singapore, is now being investigated for how the scientists were allowed to access live samples of bats and bat hunters (humans) without due permissions.

The [results of the study](#) were published in October last year in the *PLOS Neglected Tropical Diseases* journal, originally established by the Bill and Melinda Gates Foundation.

As the author J.R. Nyquist puts it:

We must have an investigation of the outbreak in Wuhan. The Chinese must grant the world total transparency. The truth must come out. If Chinese officials are innocent, they have nothing to hide. If they are guilty, they will refuse to cooperate.

The real concern here is whether the rest of the world has the courage to demand a real and thorough investigation. We need to be fearless in this demand and not allow "economic interests" to play a coy and dishonest game of denial. We need an honest inquiry. We need it now.
