

The Satanic Deceptive Organization knowingly, intentionally continues to deceive(cover-up their illegal actions of exposing the populace to radiation) the populace by stating that “virtually everything we eat and/or consume” has been recalled because of Listeria and/or Salmonella poisoning , but in reality we are being “killed” by the bioweapon of mass destruction(aka covid-19 vaccine) commence by Donald Trump(aiding and abetting Barry Soertoes-Barak H. Obama the illegal immigrant – brain initiative - DARPHA) and his joint participation with Marxist Terrorist Tedro(impersator of the World Health Organization Director and China Xi Jinping) and radiation exposure/poisoning(via directed energy) via 5G, cell phone towers, cell phones, LED street lights, etc. Can you tell the difference? Notice below radiation exposure and Listeria symptoms are virtually the same and listeria(SEE BELOW).

RADIATION EXPOSURE

Symptoms of radiation exposure, also known as radiation sickness or acute radiation syndrome (ARS), can include:

- ▯ **Early symptoms:** Nausea, vomiting, headache, diarrhea
 - ▯ **Later symptoms:** Loss of appetite, fatigue, fever, seizures, coma
 - ▯ **Skin damage:** Swelling, itching, redness of the skin, severe skin damage
 - ▯ **Other symptoms:** Bleeding, hair loss, weakness, dizziness, confusion, fainting, dehydration, bloody stool, ulcers, inflammation of exposed areas
- Symptoms can start within minutes to days after exposure and can last for minutes up to several days.

If you experience any symptoms of radiation exposure, seek medical attention as soon as it is safe.

Radiation sickness can be serious and can lead to death. Recovery can take up to two years, and even after recovery, you may be at an increased risk of cancer.

LISTERIA

Symptoms of listeriosis, or a listeria infection, can vary depending on the severity of the illness and may include:

fever, muscle aches, nausea, diarrhea, headache, stiff neck, confusion, loss of balance, and convulsions.

Symptoms can appear within a few hours of eating contaminated food, or it can take up to three months for more severe symptoms to develop. Symptoms can last from days to several weeks.

Pregnant women are about 10 times more likely to get listeriosis than other healthy adults. They may experience a mild illness that feels like the flu, but they can still pass the infection to their unborn baby. Infections during pregnancy can lead to miscarriage, stillbirth, premature delivery, or infection of the newborn.

SALMONELLA POISONING

Salmonella poisoning is a foodborne illness caused by the salmonella bacteria. Symptoms include:

- Diarrhea
- Fever
- Stomach cramps
- Nausea
- Vomiting
- Chills

- ▯ Headache

- ▯ Blood in the stool

Symptoms usually appear 6 hours to 6 days after exposure and last 4 to 7 days. However, some people may not develop symptoms for weeks.
