Story highlights

New Epstein Files cite an FBI interview detailing disturbing, unverified allegations involving Bill Clinton, George Bush and Donald Trump.

The latest tranche of Epstein Files released on Friday shows an email exchange where Former US President Bill Clinton and George Bush have been accused of raping a boy. The boy, in an interview with an FBI agent on August 27, 2019, made some horrifying claims. He said that he was in an yacht where he was raped (sodomized) by Epstein in 2000. US President Donald Trump was also present on the trip.
